

The Boxer Rebellion, Flight

You
Eh why you looking at me
You got something to hide
I got something to see

Stay
Right where you stand
And then when I say go
You gonna take what you can

Look at the things you've done
At the things you've done
At the things that you've done

We're on fire
Stand and fight
We could be in flight

You
You mean nothing to me
Can I feed you a lie
For a pledge to be free

Take
And then make what you can
Quit choosing a side
Stay right where you stand

Wait before you let it go on
Before you let it go on
Before you let it go on

We're on fire
Stand and fight
We could be in flight

We'll burn it down...

We're on fire
Stand and fight
We could be in flight

Lost and tired
Read our rights
We could be in flight
