

THE BOYZ, Giddy Up

Everyone focus here, let's go
Just have fun, don't be so cautious
Anxiety down down down down
Follow me, burn it up
Wow wow wow wow
Scream and turn it up
Just like we feel right now, let's run to the sky
Throw away your worries, trust yourself with me
Eeny meeny miney mo, no need to make it hard
Just need your heart fluttering eyes, throw yourself

We're young and free, don't be afraid
Run across this path
Hold my hand, dream more, if we're together, everything is good
Make some noise

Giddy giddy up, let's go to the tip of the sky
Go run run run (come on)
Giddy giddy up, let's run into the cloud
Go run run run

Don't ever stop, clash against it all
Feels like I can touch this moment I dreamed about
I'm ready with my new senses
When this whole world shines
Giddy giddy giddy up now

However your feet go, move
Whistle and have even more fun
Worries go down down down down
Follow me, burn it up
Wow wow wow wow
Scream and turn it up

Be with me just like this, hold me tighter
Whatever it is, I'll give you more, trust me

We're young and free, run more
Even if you fall, get up again
Hold my hand, dream more, if we're together, everything is good
Make some noise

Giddy giddy up, let's go to the tip of the sky
Go run run run (come on)
Giddy giddy up, let's run into the cloud
Go run run run

Don't ever stop, clash against it all
Feels like I can touch this moment I dreamed about
I'm ready with my new senses
When this whole world shines
Giddy giddy giddy up now

Leave it and run ta ta ta ta ta
Empty your spot for a moment, pop pop pop
Track check it plaque take it
If I have to say it, I'm a trend make it
It'll be good for you to focus, everyone shh
I'm different from all the others you've seen so far
I run with a fast speed, baby
Running to here and there, far away
Without holding back, giddy up

Giddy giddy up, to the tip of the sky, you and I

Go run run run (come on)
Giddy giddy up, trust your racing heart
Go run run run

Don't ever stop, clash against it all
Feels like I can touch this moment I dreamed about
I'm ready with my new senses
When your eyes shine
Giddy giddy giddy up now
