

The Bravery, Who Left Me Out

Everyone knows what to do
But nobody told me
Looking at me like I knew
So nobody told me
Everyone knows where to go
But nobody told me
Been walking around like I know
Something no one told me

But I wanna know
Who left me out
I wanna know
Who let me down
And I wanna know
Who left me out

Who left me out

Everyone knows what to say
But nobody told me
Everyone around with a smile on their face
But nobody told me
Everyone knows what to do
But nobody told me
Looking at me like I knew
Something no one told me

But I wanna know
Who left me out
I wanna know
Who let me down
And I wanna know
Who left me out

Everyone knows what to be
But nobody told me
I wish I could see what they see
But nobody told me
So maybe it's just me
It must have been me

And I wanna know
Who left me out
I wanna know
Who let me down
And I wanna know
Who left me out
