

The Braxtons, I'd Still Say Yes

verse 1

i love u most when we share a place
those special good times together
it seems like our love cant get much better, no
'cuz we were as close as two could be
we knew love would last forever
we're more than just lovers, we're
good friends

And even if our love
Could drift away
I wouldn't even think twice
If I wanted love back again

Chorus 1

Because I'd still say yes to you again
My darling for you I'd do it all again
Yes I'd still say yes to you again
Darling for you I'd do it over and over again
To you ya know I'll say yes
Oh my darling, oh my darling only for you

verse 2

Where does it go, how does it end
True love it seems so easy
'Cuz we have no doubts
where we belong, where we belong

They say time can heal a broken heart
And true love never ends
So why not start where we began

Chorus 2

Because I'd still say yes to you again
My Darling for you I'd do it all again
Yes i'd still say yes to you again
Darling for you i'd do it over and over again

Bridge:

They say time can heal a broken heart
And true love never ends
So why not start where we began, baby

Repeat Chorus
