

# The Bright Star Alliance, Staring Into Reflections

This is a race I have with time  
and it's consuming me running in circles I search for you  
On my back abroad here in this room  
This is taking me longer to get to you  
I think I'll wait outside this door in front of me that's locked  
Until you bring me the key  
O' I will wait I feel and smell it's not enough  
Open this door and let me inside of you  
(Ocean waves crashing into the surface  
Letting go of the things we used to be)  
You are the key to my heart  
(Believe me)  
You are the only element  
(When they say that the end is forever  
don't look back, don't look back, don't look back.)  
I don't want to forget you  
I need your love to get this heart beating inside my chest  
I need your love to keep me alive  
Here in this room the cold air seeps in,  
will you please let me into your life  
I think I'll wait outside this door in front of me that's locked  
Until you bring me the key  
O' I will wait I feel and smell it's not enough  
Open this door and let me inside of you  
(Ocean waves crashing into the surface  
Letting go of the things we used to be)  
You are the key to my heart  
(Believe me)  
You are the only element  
(When they say that the end is forever  
don't look back, don't look back, don't look back.)  
I don't ever want to forget you  
I never thought that I would ever see the day,  
when everything I dreamt of fell apart  
And all that I could do is turn away  
As our steps now separate this light  
won't cast a shadow of what's behind us  
We fade away tonight  
Listen to me I wont let go  
Listen to me I wont let go  
I wont let go of you I know I wont  
I wont let go of you I know I wont  
I wont let go of you I know I wont  
I wont let go of you I know I wont  
(Ocean waves crashing into the surface  
Letting go of the things we used to be)  
You are the key to my heart  
(Believe me)  
You are the only element  
(When they say that the end is forever  
don't look back, don't look back, don't look back.)  
I wont ever let you down, down, down.
