

The Browns, Just In Time

I never thought I'd fall in love again I played the game before but just couldn't win
I tried so hard to live my life alone when deep inside I knew that it was so wrong
Blue days and sleepless nights I paid the cost
My heart was hurtin' with the love I had lost
Just when I thought that I would lose my mind you gave your love to me just in time
(steel)
Sweetheart you'll never know how much I care
The way you make me feel when you are near
My hope my everything my dream come true
You make my life complete when you say I do
Blue days and sleepless nights will be no more
You've given me a love that's worth living for
Just when I thought that I would lose my mind you gave your love to me just in time
