

# The Browns, You'll Always Be In My Heart

Always always you'll always be in my heart always always you'll always be in my heart

Not so long ago when I first met you you promised that we'd never ever part

Darling now I know I can't forget you cause you'll always be in my heart

( fiddle )

Beware for someone new may come between us and try to break us up and acting smart

Don't listen to the things that they may tell you cause you'll always be in my heart

Always always...
