

# The Buzzcocks, Back With You

You help me sing my song  
Now it's easy to carry on  
And it won't be long before I'm back with you  
I'm back with you

The things you make me do now  
The things you make me do, yeah  
The things you make me do now  
The things you make me do, yeah

The difference between right and wrong  
And those feelings seem so strong  
And it won't be long before I'm back with you  
I'm back with you

The things you make me do now  
The things you make me do, yeah  
The things you make me do now  
The things you make me do, yeah

The things you make me do now  
The things you make me do, yeah  
The things you make me do now  
The things you make me do, yeah

The things you make me do now  
The things you make me do, yeah  
The things you make me do now  
The things you make me do, yeah  
The things you make me do now  
The things you make me do, yeah  
The things you make me do now  
The things you make me do, yeah  
The things you make me do now  
The things you make me do, yeah  
The things you make me do now
