

# The Buzzcocks, Sound Of A Gun

Heading for bad weather  
Hard rain is gonna come  
Everybody shakes to the sound of a gun

You might think you're clever  
This thing will strike you dumb  
Everybody shakes to the sound of a gun

You can live forever  
Just like everyone  
Everybody shakes to the sound of a gun

Bullets flying everywhere  
What they hit they don't care  
A sonic sound is in the air

This time it's now or never  
Like a rabbit on the run  
We could live together  
The time has got to come  
Everybody shakes  
To the sound of a gun
