

The Buzzcocks, Trash Away

And it's a one more night to trash away
And if you don't get it right, there'll never be another day
In the day we walk through broken glass
Nothing to say that the time is fading fast
What's in the future if you haven't got a past
Here's one kid that's looking to trash away

Well it's a one more life to trash away
And if you don't get it right I hope the revolution comes this way
In the day we walk through broken glass
Nothing to say that the time is fading fast
What's in the future if you haven't got a past
Here's one kid that's looking to trash away

In the day we walk through broken glass
Nothing to say that the time is fading fast
What's in the future if you haven't got a past
Here's one kid that's looking to trash away
I said here's one kid that's looking to trash away
Here's one kid that's looking to trash away
Well here's one kid, here's one kid, looking
Newcastle, Liverpool, Leeds, Scotland, Aberdeen, Glasgow, Windsor, Manchester
In the Lake District, in L.A., in L.A., in L.A., in L.A.
Here's one kid that's looking to trash
Here's one kid that's looking to trash
Here's one kid that's looking to trash away
Here's one kid, here's one kid
