

The Buzzcocks, When Love Turns Around

What do you get when love turns around
The hate is just a state in your mind
You say that you know me but some things are hard to find
When love turns around you
When love turns around you

What do you forget when love turns around
The state is just a hate in your mind
You say that you know me but some things are easy to find
When love turns around you
When love turns around you

Although your life is plain
Lose as you win it's all the same
When love turns around you
When love turns around you

[Solo]

You say that you know me but some things are hard to find
When love turns around you
When love turns around you
When love turns around you
When love turns around you

And you, you
And you and you and you and you and you
And you and you and you and you and you
