

# The Byrds, C.T.A.-102

C.T.A.102 year  
Over year receiving you  
Signals tell us that you're there  
We can hear them loud and clear

We just want to let you know  
That we're ready for to go  
Out into the universe,  
We don't care who's been there first

On a radio telescope  
Science tells us that there's hope  
Life on other planets might exist!
