

The Byrds, The Airport Song

You make me smile
And all the while
You're so cool I can feel
You care if it's real
Our love

I found you here
The sun in your hair
Caught my eye passing by
I knew I should try
Our love

I watched the planes coming in
Felt my heart beat begin
And I knew that
I would stay

A cab for two
A whole city new
But this time we'll share
The love we'll find there
Our love
