

The Byrds, Think I'm Gonna Feel Better

I think I'm gonna feel better when tomorrow comes
When I see the sun through my window
I think that everything is going to be all right
Though I know that you have found another
I hope you understand that I
Still love you so bad
But when tomorrow morning comes
I hope that you will see the sun shine too
Come shining through

I think I'm gonna feel better when tomorrow comes
When I see the sun
When I see the sun
