

# The Calling, Your Hope

When your hope is lost  
When your hope is fading...

What would you do if you had  
Just one little pill in your hand  
That changed around all you could be  
That helped you forget what you've seen  
If all you ever wanted, was to let go...  
(There are so many things that we just don't know about)

## CHORUS:

When your hope is lost and you can't take it  
Just follow your heart don't let them break it

You think it would be all right  
To live someone else's life  
Trust what you already have  
Cause once you fall in, you can't turn back  
If all you ever wanted, was to let go...  
(I think we all know what it's like to feel alone)

## CHORUS

You've got to throw those thoughts away  
Before you make a big mistake  
You've lost control, been thrown off track  
But now it's time, to take it back, take it back  
You have to want to  
You have to want to...

(There are so many things)

## CHORUS

When your hope is lost  
When your hope is fading  
When your hope is lost...
