

The Car Is On Fire, Ex sex is (not) the best (title)

You may be mine no more, but I'm forever yours
I'll try to handle this, an everlasting rose
I saw you then, well I see you now
I can't forget you anyhow
(I wanna see, I wanna see...)
You told me once that you were never that amused
My jokes ain't bad enough, I feel like I've been used
And I love it how you smell
With your Coco Mademoiselle
I saw you the, well I see you now
I can't forget you anyhow
