

# The Cardigans, Black Letter Day

Words: Sveningsson

Music: Svensson, Sveningsson

I did all that I should, well all that I could  
but will I be clean  
I did all that I should, well all that I could  
but it isn't me

all my strength is dead and gone  
slept as long I could, as long as I should  
to find comfort here  
slept as long I could, as long as I should  
but I still have fear

all my strength is dead and gone...  
black letter day  
all the fun / joy / strength  
...has gone away

I drank all that I could, much more than I should  
in simple despair  
I drank all that I could, much more than I should  
to find someone there

I hope monday will be a better day
