

The Cardigans, In The Round

I am young and I'm alive
I want to talk about things
I am young and I own my life
I need to talk about it, baby

I am one but I asked for two
I didn't get anything
This puppet's lonely without you
It's tough to walk without strings

I do my dance in the round

I'm right on track but this state is frail
You slip out and derail

I do my dance in the round
So people clap your hands
Clap your hands

I wanna do it right this time
I wanna step in time
I wanna do it right this time, yeah!

Clap your hands

I gotta get get it right this time
I wanna step in time
I wanna do it right this time

I do my dance in the round

I am young, coming at you live
People gonna talk about me
When I'm done, please hang me high
For everybody to see

Cause I do my dance in the round
So people clap your hands

I wanna get it right
I'm dyin'to get it right
I wanna get it right
I'm dyin'to get it right
