

The Carpenters, Kiss Me The Way You Did Last Night

(Linda L. Lawley/Margaret Dorn)

Serenade me by the light of the moon,
Let's sing and dance as lovers do
When the morning light shines down on me
With you, my love I want to be
As the stars go sailin' by
We can count them you and I
We can make a wish when one falls from the sky
And my only wish would be
That forever I would see
You movin' thru the darkness smiling that way at me

(*) Kiss me the way you did last, night
Lay down beside me, holdin' me tight
Kiss me the way you did last night,
Tonight until the morning light

Celebrate love while the feeling is new
It's a moment that was meant for me and you
If tomorrow never comes I won't care,
I'll just love you tonight and all we share...

Repeat (*)

Tonight, tonight and every night
(Kiss me)
The way you did last night

Repeat (*)
