

The Carpenters, Lovelines

(Rod Temperton)

Darling, you to me fallin'
Cause you the only one that ever does it right
Every night I'm dreamin' about the feelin'
You know I can't explain what's goin' down
My head keeps spinnin' round.

You are my lovelines
That's all right me
Just give me good times
The way that love should be.
Baby, your the one bloom
that helps me through the day
And darlin' I know I'll always fell this way
Lovelines don't fade, my love.

Baby, come on and take me into that wonder land where lovers go
Heaven knows I need you
I want to feel you.
I got that strange sensation deep inside
That only can satisfy

(repeat chorus)

You are my lovelines
That's all right me
Just give me good times
The way that love should be.
Baby, your the one bloom
that helps me through the day
And darlin' I know I'll always fell this way
So give me lovin' like I've never known before
Make me cry out loud for more.
