The Carpenters, Sweet, Sweet Smile

(*) You're always in my heart

From early in the mornin' til it's dark

I gotta see your sweet, sweet smile everyday

When I wake up in the mornin'

And I see you there

I always whisper a little prayer

I gotta see your sweet, sweet smile everyday

(**) I gotta know that you love me

And that you want me

And that you'll always be there

I've gotta know that you care

(***) And I gotta feel your arms around me

And that you need me

And that you'll always be there

I've gotta know that you care

If my times are bringin' me down

You're the only one that I want around

I gotta see your sweet, sweet smile everyday

And if I'm all strung out

You're the only one who can straighten me out

I gotta see your sweet, sweet smile every day

Repeat (**)

Repeat (***)

Repeat (*)
