

The Chainsmokers, Self Destruction Mode

I woke up in self destruction mode
I press go and I do it again
I love my sins, they're all I know
We got closer than all of my friends

Triple seven on the dash
Guess I'm feeling lucky
I kinda got a thing for cash
I just want your money
I'm tying cherry knots
Got 'em twisted like my stomach
I'm a mess, I'm a mess, I'm the best

I woke up in self destruction mode
I press go and I do it again
I love my sins, they're all I know
We got closer than all of my friends

C4 I do that damage
My ego is titanic
I woke up in self destruction mode
Watch me go, Imma do it again

Imma do it again

I'm in the Czech Republic
Checking out come and find me
I can't just have a little drink
It neat never nicely
We woke up on a Monday went to bed on a Friday
I like me, you want to bite me

Devil on my shoulder
Say I just want to know ya
And if you pull me closer
Well baby Imma show ya
My vision's getting slower
Well baby what's composure
Should've listened when I told ya

I woke up in self destruction mode
I press go and I do it again
I love my sins, they're all I know
We got closer than all of my friends

C4 I do that damage
My ego is titanic
I woke up in self destruction mode
Watch me go, Imma do it again

I woke up in self destruction mode
I woke up in self destruction mode
I press go and I do it again
