

# The Chainsmokers, Up & Down (feat. 347aidan)

I feel jet-lagged every day  
I've been out my mind drinking anyway  
Do you have the time? Tell me what's the date  
Might be out of line but I feel in place  
I thought I heard you say

Up and down, in the crowd  
Finally I feel better now  
Off the ground, in the clouds  
Wish that you could see me now

I don't doubt, say it loud  
Came up from the underground  
Turned around, made it out  
I wish that you could see me now

I wish that you could see me now  
Wish that you could see me now  
I wish that you could see me now

I wish that you could see me now  
Wish that you could see me now  
I wish that you could see me now

Up and down, in the crowd  
Finally I feel better now  
Off the ground, in the clouds  
Wish that you could see me now

I don't doubt, say it loud  
Came up from the underground  
Turned around, made it out  
I wish that you could see me now

Up and down, in the crowd  
Finally I feel better now  
Off the ground, in the clouds  
Wish that you could see me now

I don't doubt, say it loud  
Came up from the underground  
Turned around, made it out  
I wish that you could see me now

I wish that you could see me now

I wish that you could see me now

Up and down, in the crowd  
Finally I feel better now  
Off the ground, in the clouds  
Wish that you could see me now

I don't doubt, say it loud  
Came up from the underground  
Turned around, made it out  
I wish that you could see me now
