

# The Charlie Daniels Band, Heaven Can Be Anyw

""Twin Pines Theme (Heaven Can Be Anywhere)""  
from the album "Midnight Wind"

Somewhere there's got to be  
Someplace where you and me  
Can get away from this noise and worry

Just you and me alone  
There'd be no telephone  
We'd never be in a hurry

Just a hill with some tall trees  
Where a creek comes moving in line (or bubbling by)  
Mingling with the green of the grass  
And the blue of the sky

I'd never go away  
We'd just spend everyday  
Living out the dreams we've been saving

Anyone who'd see us  
Sure would like to be us  
Just for the memories we're making

But I guess that would be heaven  
And I don't really care  
Cause while we're dreamin, baby  
You don't have to wonder, baby  
Heaven can be anywhere  
As long as you're there

But I guess that would be heaven  
And I don't really care  
Cause while we're dreamin, baby  
You don't have to wonder, baby  
Heaven can be anywhere  
As long as you're there
