

# The Chemical Brothers, Galvanize

Don't hold back!

Cuz you woke up in the mornin' with initiative to move so I'll make it harder

Don't hold back!

Cuz you think about it so many people do to be cool and look smarter

Don't hold back!

And you shouldn't even care about those losers in the air and the crooked stares

Dont hold back!

Cuz there's a party over here, so you might as well be here where the people care

Don't hold back!

The world... (they're holding back)... the time has come to...

The world... (you're holding back)... the time has come to...

The world... (it's holding back)... the time has come to...

To galvanize!

Come on, come on, come on!

(Second verse)

Don't hold back!

If you think about it too much you might stumble, trip up, fall on your face

Don't hold back!

Don't you think its time you get up, crunch time like a sit up, the monkey pace

Don't hold back!

Put apprehension on the back burner, let it sit, dont even get it lit

Dont hold back!

Get involved with the jam don't be a prick, hot chick, be a pig

Dont hold back!

The world... (they're holding back)... the time has come to...

The world... (you're holding back)... the time has come to...

The world... (it's holding back)... the time has come to...

To galvanize!

Come on, come on, come on!

(Ooooooooooooooooooooooh...)

(Ooooooooooooooooooooooh...)

World, the time has come to... push the button

World, the time has come to... push the button

World, the time has come to... push the button

World...

My finger is on the button...

My finger is on the button...

My finger is on the button...

"Push the button"

(Ooooooooooooooooooh...)

The time has come to...

(Ooooooooooooooooooh...)

GALVANIZE!

The time has come to...

Galvanize!

Galvanize!

Galvanize!
