

The Chemical Brothers, Get Yourself High

Just get yourself high x 5

here we go
Don't rely on this, to get you high
Don't rely on us, to get you high

Wait, hold up, electrify, death defy, elect the high, Connect the sky
To the sensei, blade keeps spinning
All around the world, but the world keeps sining
I've been in crazy situations
Since I've learned the art of watching paitence
Big shout to the hip-hop nation, just dance with elation, yeah

Don't rely on this, to get you high
Don't rely on us, to get you high

Yo, put the needle on the record, here we go again
It's the brank new funk for real
Mass appeal, it's everlasting, asking you forcasting direction
Insurrection is served on a 12 inch platter
Mostly incorrect data, over matter
Is a mind that you'll find, it's design, is international, Rational
Back in the day we listened to rap, Bill gats in the backpack
Yo, try many styles for the 3-1, instead of writing a rhyme I'd rather be one
two yo can watch what you do and live in the now, but believe there's only a few
Sometimes you've got to get inside to get it high

(you don't know) x3

Don't rely on us, to get you high
Don't rely on this, to get you high
Don't rely on us, to get you high
Don't rely on this, to get you high

Just get yourself high x4
