

The Chemical Brothers, I Think I'm In Love (C.B.

Sun so bright that I'm nearly blind
Cool cos I'm wired and I'm out of my mind
Warms the dope running down my spine
But I don't care 'bout you and I've got nothing to do
Free as the warmth in the air that I breathe
Even freer than DMT
Feel the warmth of the sun in me
But I don't care 'bout you and I've got nothing to do
Love in the middle of the afternoon
Just me, my spike in my arm and my spoon
Feel the warmth of the sun in the room
But I don't care 'bout you
And I've got nothin'
And I've got nothin'
And I've got nothin'

I think I can fly
Probably just falling
