

The Chipmunks, Off To See The World

Flying through the airways
Making the right stops
Through a storybook of places
Making all our drops

See the cliffs of Dover
And over to the right
Are the snowy white-capped Alps
Majestic, standing bright

Chorus

Hey don't you know that we're off to see the world
We're off to find our dreams
Why are our hearts beating so fast
Why is there suddenly a brand new hope inside of us that will surely last
Hey don't you know that we're off to see the world
We're off to find things new
So we will follow every clue
Just thing there suddenly
A chance to find it in all we dreamed in dreams come true

Just flew over Switzerland
Destination set
Heading out for Africa
A place we won't forget
Faced a threat in Rio
We could be in for more
And now we are desending
I can see the pearly shore

Chorus

Hey don't you know that we're off to see the world
We're off to find our dreams
Why are our hearts beating so fast
Why is there suddenly a brand new hope inside of us that will surely last
Hey don't you know that we're off to see the world
We're off to find things new
So we will follow every clue
Just thing there suddenly
A chance to find it in all we dreamed in dreams come true
