The Church, Anaesthesia

I remember going out yeah Everything is spinning round Remember feeling like I'd drowned Behind the veil is a sea yeah Only entered into chemically Anaesthesia down so deep

Anaesthesia's numbing Anaesthesia's coming to you I don't know why Seems like I'm flying On the ground, in the air

Slow-mo don't know
I can't stop or go
Where's the show, where
I got a feeling about someone
I do not know where
So many things need fixing everywhere
Anaesthesia tells me "slow down a little more"
She says "why not sleep a little more"
And tiptoes softly to the door

Anaesthesia's numbing Anaesthesia's coming to you I don't know why Seems like I'm flying On the ground, in the air

Anaesthesia's soothing Anaesthesia's moving with you I don't know how It seems like now It seems like never to me

I remember going out yeah
Everything was spinning round
Remember feeling like I'd drowned
Anaesthesia's numbing
Anaesthesia's coming to you
I don't know why
Seems like I'm flying
On the ground, in the air
Anaesthesia's soothing
Anaesthesia's moving with me
I don't know how
It seems like now
It seems like never to me

Anaesthesia's soothing Anaesthesia's moving
