

The Church, Appalattia

Appalattia
You're such a beautiful high
Applicator
A pale blue desire

Cloudy in my memory
Like one long moment can be
Such a godly gift
(You're such a beautiful high)

Turning favor on
Every day I'm watching you
Learning our love song
In this way it's changing you

Fascination, your secrets of life/alive
In the ascending, brings on an ultimate smile
Water in the lamplight
Danced along this shared night
Singing with the star shine
Until the morning sun blind

Burning slowly on
Everyday I'm missing you
Yearning not for long
Searching everywhere, I'm gaining you

You're such a beautiful high
Such a beautiful high

Water in the lamplight
Danced along this shared night
Singing with the star shine
Until the morning sun blind

Journey up and on
Every day becoming you
Burning as you lay
(Searching the world)
On this day becoming you
(I'll search beneath the world)

This'll be your shelter
A certain rusty belter
Leave her and I felt her
A river and a delta
