

# The Click Five, Say Goodnight

Our separation has its faults  
But I don't wanna leave it all  
So write the letters in teary ink  
I just need some time to think  
And I just need some time to breathe

Baby, just say goodnight  
I'll be gone tomorrow  
Baby, just close your eyes  
I can't take the sorrow  
Baby, just walk away  
You know I can't stay  
There's no easy way to say goodbye  
So baby, just say goodnight

We're in a spell that never ends  
The empty hourglass wore me thin  
So let the phone do its work  
Your voice is heaven  
But it hurts  
Your words are memories  
But they burn

Baby, just say goodnight  
I'll be gone tomorrow  
Baby, just close your eyes  
I can't take the sorrow  
Baby, just walk away  
You know I can't stay  
There's no easy way to say goodbye  
So baby, just say goodnight  
Baby, don't say goodbye  
Baby, just close your eyes  
And dream  
Tomorrow's on its way  
So just walk away

Baby, just say goodnight  
I'll be gone tomorrow  
Baby, just close your eyes  
I can't take the sorrow  
Baby, just walk away  
You know I can't stay  
There's no easy way to say goodbye  
So baby, just say goodnight  
Baby, just say goodnight
