

# The Cooper Temple Clause, One Quick Fix

Please come out  
I'd really like to see you  
I don't mind  
But do you really want me too tonight?

Why should you make friends?  
Standing at the window  
Now the world can see you  
Why do you tease them so?  
Now it is too light  
I wait by your apartment  
Watch the world go by  
'Til you make an appearance

Please come out  
I'd really like to see you  
I don't mind  
But I know you really want me to tonight
