

The Cooper Temple Clause, Pins And Needles

Was it me being sat like this
I think it's cause you're sitting here too
I wanted to keep you company
It seems we were sitting here
For longer than we ever thought
It's only when I got up
I realised I felt this way
I can't imagine it staying with me

Forever
And ever

You got pins and needles
Just pins and needles
You got pins and needles
Just pins and needles

Said it would go away
Looks as though it's here to stay
Said it would go away
Looks as though it's here to stay

You said it would go away
Looks as though it's here to stay
You said it would go away
Looks as though it's here to stay

Were we really there that long?
Maybe we should sit back down
We were there together
So I guess you feel it too
Can we help each other through?

You got pins and needles
Just pins and needles
You got pins and needles
Just pins and needles

You said it would go away
Looks as though it's here to stay
You said it would go away
Looks as though it's here to stay

You said it would go away
Looks as though it's here to stay
You said it would go away
Looks as though it's here to stay
