Look I'm just a pest  
and your just perfect  
Which has only just become apparent  
Don't put up with what is just second best  
Cos you can make things happen  
If you're not on form then I don't stand a chance  
Cos this is what could be but I'm not my best

If you're drawing starts and I'm drawing shapes  
Which I know you drew cos I made mistakes  
Now your pulling stars and I'm pulling shapes  
Cos I make mistakes happen  
The trouble with you you get it all wrong  
Cos the trouble is with me I say it all wrong
