The Corrs, Even If

For what it's worth I think there's nobody like you You've got grace got a heart beating and despite you're fun As I grew up I was terrified of darkness Now you're around I've no reason to be frightened

'Cause even if the sun came tumbling down You light the ground I walk on Even if the moon fell out of the sky You light the ground I walk on

Now that you're mine I can't picture life without you You're my friend, you're my lover wanna bite you

'Cause even if the sun came tumbling down You light the ground I walk on Even if the moon fell out of the sky You light the ground I walk on

The world goes on spinning and I can't retrace My heady footsteps to this place I'm in heaven right now and I don't want to come down

'Cause even if the sun came tumbling down You light the ground I walk on Even if the moon fell out of the sky You light the ground I walk on

Now we're alone gonna show how much I need you Kiss you so you won't ever wanna leave me

'Cause even if the sun came tumbling down You light the ground I walk on Even if the moon fell out of the sky You light the ground I walk on

'Cause even if the sun came tumbling down You light the ground I walk on Even if the moon fell out of the sky You light the ground I walk on
