

# The Corrs, That's The Way I Feel About You

(featuring Mary J. Blige)

You know life is funny  
When you look at it everybody  
wants love  
and everybody's afraid of love  
I'm a firm believer that if you  
get anything out of love  
you got to put up with the tugs  
and strive yeah  
you almost push our love a little  
bit too far  
we forgot to remember how blessed  
we are

And that girl over there telling  
you what she sees  
you don't have to worry she ain't  
gonna get next to me  
you told me to think it over and  
I thought it over  
and over and over over and over  
you see 'cause

Chorus

That's the way I feel about you  
That's the way I feel about you  
That's the way I feel about you  
That's the way I feel about you

I know you've been hurt so have  
many of us too  
that's a sacrifice life is gonna  
put you through  
trust in me like I trust in you  
sometimes I look at you baby  
And wonder if God sent you here  
don't take my love as a sign of  
weakness  
check into the situation it gets  
a little deeper  
told me to think it over and I  
thought it over

Chorus

Please, please, please answer to love  
if it ever come knocking at your door  
'cause what's out there knocking baby  
the world don't get enough of  
I know you've been hurt so many have  
many of us too  
That's a sacrifice that life is gonna  
put you through  
don't take my love as a sign of a weakness  
check into the situation it gets a little  
deeper and deeper  
you told me to think it over and I thought  
it over  
you think it over baby

Chorus

Fade
