

# The Cranberries, I Will Always

And now it's all the same to me  
Be whatever you want to be  
Go wherever you need to go  
And when it all seems like a mistake  
Take whatever you need to take  
Leave the rest for my own sake

I will always  
Go beside you  
You will always  
Understand it

And now, it's all the same to me  
So be whatever you want to be  
Go wherever you need to go  
And when there's nothing left behind  
Taken whatever you needed to  
and leave it all into my mind

I will always  
Go beside you  
You will always  
Understand it
