

The Cranberries, The Picture I View

I haven't changed but my life has
People are strange when it's like us
I did something wrong to them
And I don't even know your name
No I don't even know your name

I swear that he's good for me
And I swear he looks after me
And I swear he looks out for me
And I swear that he's good, good, good

Laha, laha, laha the picture i view
Laha, laha, laha the picture i view
Laha, laha, laha the picture i view
Laha, laha, laha the picture i view

All my plans and promises
went tumbling down the hill
All my friends and promises
went tumbling down the hill

I haven't changed but my life has
People are strange when it's like us
I did something wrong to them
And I don't even know your name
No I don't even know your name
Don't even know your name
