

# The Cranberries, Waltzing Back

Who gave them the right  
Waltzing back into your life (your life, your life)  
Now I feel fear  
I wish that they'd never come here (here, here)

What they gonna do  
What they gonna say  
Taking you away  
From my life (my life, my life)

Say, what they gonna do  
What they gonna say  
Taking you away  
From my life (my life, my life)

Who gave them the right  
Turning it back into light (tonight, tonight)  
And then I felt fear  
I wished that they'd never come here

What they gonna do  
What they gonna say  
Taking you away  
From my life (my life, my life)  
Oh, I don't wanna lie  
I wanna shine  
I wanna say  
Cos it's your life (your life, your life)

Who gave them the right  
The right  
The right  
The right
