

The Creatures, Further Nearer

Nowhere nearer we have travelled
Nearer further from the start
Somewhere distant waiting close at hand
Further nearer to the stop

It's not all we ever wanted
We could want for nothing else
It's not all we ever wanted
We could want for nothing else

Out of sight and right in front of us
Sooner longer still to go
Reaching out to touch horizon
Sooner longer than you know

It's not all we ever wanted
We could want for nothing else
It's not all we ever wanted
We could want for nothing else

If the skies should snow in summer
Back beyond and on the brink
Falling up a moving mountain
Now is later than you think

Nowhere nearer we have travelled
Nearer further from the start
Somewhere distant waiting close at hand
Further nearer to the stop

It's not all we ever wanted
We could want for nothing else
It's not all we ever wanted
We could want for nothing else

We could want for nothing else
We could want for nothing else
