

# The Creatures, Gecko

Giant sized flowers  
giant sized bugs  
giant sized gecko  
is making his path

undergrowth running  
a chorus of frogs  
a parakeet's picnic  
all writhing in a tub  
panoramic banana  
a passion fruit samba  
pale skin is itching -- a tropical fever

creatures crawl and creatures call  
all creatures great and small  
gecko sits and watches all  
from perches short and tall
