

# The Crips, You & I

You and I

You and I

We should take the road less travelled

We should take the road less travelled

And I

Will die

You and I

You and I

We should always feel empowered

We should always feel empowered

And I die

Will die

And when you're feeling low

Let the feeling show

We all know what it's like to be left behind

Yeah yeah yeah, oh

Yeah yeah yeah, oh
