

# The Cross, Ain't Put Nothin' Down

You ain't put nothing down down  
You ain't put nothing down  
You ain't put nothing down boy  
You ain't put nothing down

You know you hide from yourself  
You know you're turning away  
Sometimes you've got to face the world  
Take it day by day

Hey sometimes you've got to take a look around  
Keep your ear to the ground  
You ain't put nothing down  
You ain't put nothing down  
Gotta stop this fooling around boy  
Because you ain't put nothing down

You know you're running away  
You've got to win on this race  
Give it all that you've got  
This human race needs a lot

Because you ain't put nothing down down  
You ain't put nothing down  
You've got to turn yourself around  
You ain't put nothing down

Hey - hey

So many questions - you ask yourself  
Better find some answers - don't get left on the shelf  
This is your - cry for help  
Better help yourself

You ain't put nothing down down  
You ain't put nothing down  
You ain't put nothing down down  
You ain't put nothing down

You ain't put nothing down  
You ain't put nothing down  
Better turn yourself around boy  
You ain't put nothing down

You ain't put nothing down  
You ain't put nothing down  
You had to turn yourself around boy  
You were lost but now you're found

Lost  
Lost  
Now you're found  
Lost  
But now you're found  
Lost  
Now you're found  
Lost  
But now you're found  
Lost  
Now you're found  
Lost  
But now you're found
