

The Cross, Ain't Put Nothing

You know you hide from yourself
You know you're turning away
Sometimes you've got to face the world
Take it day by day
Sometimes you've got to take a look around
Keep your ear to the ground
You ain't put nothin' down
You ain't put nothin' down
Gotta stop foolin' round
'Cos you ain't put nothin' down
You know you're running away
You've got to win on this race
Give it all that you've got
This human race needs a lot
'Cos you ain't put nothin' down
You ain't put nothin' down
You've got to turn yourself around
You ain't put nothin' down
So many questions - you ask yourself
Better find some answers - don't get
Left on the shelf
This is your - cry for help
Better help yourself
You ain't put nothin' down
You ain't put nothin' down
Better turn yourself around boy
You ain't put nothin' down
You ain't put nothin' down
You ain't put nothin' down
You had to turn yourself around boy
You were lost but now you're found
