

The Cross, Passion For Trash

She's a hot wire baby got a passion for trash
She can run my motor when I'm flat out of gas
She sparked me up made me take a look
She said there's only one way you can get in my book
Down down down baby get down
Down down down as low as you can go
Down down down baby get down
She said you'll never know just what you can do until I show you

She got take me eyes all the way smile
Gotta do watcha do when her lights are on you
She took my loving lust passion and cash
And now nights I'm dreaming of my passion for trash

Down down down baby get down
Down down down as low as you can go
Down down down baby get down
She said you'll never know just what you can do until I show you

(Passion for trash)
Passion
(Passion for trash)
Oh passion for trash
Trash

Down down down baby get down
Down down down as low as you can go
Down down down baby get down
She said you'll never know just what you can do until I show you

My passion
Down down down
A passion for trash
Down down down
Trash
Low down and dirty
You're low down and dirty
(Hard talk baby)
I love you baby
I got a passion for trash
That's you
I got a I got a I got a I got a I got a I got a I got a I got a passion for trash
