

# The Cross, Put It All Down To Love

Yeah

Well looky over here - comin' down the street  
It's long face Sally - the saddest girl to meet  
She's got all the world's problems - she carries all of our sins  
Oh but wait a minute Sally - you gotta mile wide grin

She's got something to smile about  
She's found a lover and she wants to shout

Put it all down to love  
You know you gotta put it all down to love  
You better put it all down to love

Do my eyes deceive - on the other side  
Oh it's my pal Joey - the greatest man alive  
He's a clown he's a joker - he'll bring you down to your knees  
Ah but wait a minute Joey - what are these tears I see

He's gotta reason to cry today  
He had a lover but she's gone away

Put it all down to love  
You know you really gotta put it all down to love  
Put it all down to love

Love's the reason for all the thing's we do  
Love's the reason I'm not over you  
I'll be the golden bullet in your genetic gun  
So look out baby here I come here I come

Yeah all right

Go get 'em Joey  
Little joker  
She's got something to smile about  
She's found a lover and she wants to shout

Put it all down to love  
You really gotta put it all down to love  
Put it all down to love  
Put it all down to love  
You really gotta put it all down to love  
Put it all down to love
