

# The Cross, Sister Blue

C'mon

Here we are in this year of remembrance  
With you and me there lies a resemblance  
Celebrate in this reunion  
Celebrate don't let it slip away

You make a bond you know can't be broken  
A promise kept the words that were spoken  
Celebrate to the sound of thunder  
Celebrate don't let it slip away

C'mon c'mon let's get together  
C'mon c'mon let's get together  
C'mon c'mon let's get together sister blue

C'mon c'mon let's get together  
C'mon c'mon let's get together  
C'mon c'mon let's get together sister blue

I saw you once right there in the distance  
A rocking child who screamed for existence  
Celebrate your wheels keep turning  
Celebrate believe me when I say

A battle cry from here to oblivion  
A super-nova makes you start living  
Celebrate let your cup run over  
Celebrate don't let it slip away

C'mon c'mon let's get together  
C'mon c'mon let's get together  
C'mon c'mon let's get together sister blue  
C'mon c'mon let's get together  
C'mon c'mon let's get together  
C'mon c'mon let's get together sister blue

Will you ride with me tonight  
Share my wine  
Will you lose that ball and chain  
Shake it loose it's been on too long too long

C'mon c'mon let's get together  
C'mon c'mon let's get together  
C'mon c'mon let's get together sister blue  
C'mon c'mon let's get together
