

# The Cure, Apart

He waits for her to understand  
But she won't understand at all  
She waits all night for him to call  
But he won't call anymore  
He waits to hear her say Forgive  
But she just drops her pearl-black eyes  
And prays to hear him say I love you  
But he tells no more lies

He waits for her to sympathize  
But she won't sympathize at all  
She waits all night to feel his kiss  
But always wakes alone  
He waits to hear her say Forget  
But she just hangs her head in pain  
And prays to hear him say No more  
I'll never leave again

How did we get this far apart?  
We used to be so close together  
How did we get this far apart?  
I thought this love would last forever

He waits for her to understand  
But she won't understand at all  
She waits all night for him to call  
But he won't call  
He waits to hear her say Forgive  
But she just drops her pearl black eyes  
And prays to hear him say I love you  
But he tells no more lies

How did we get this far apart?  
We used to be so close together  
How did we get this far apart?  
I thought this love would last forever
