

The Cure, Happy The Man

I'll never understand
(Come closer and I'll whisper)
Who was that standing in the rain?
If only I could remember
What he said...
(And how it all began)

Happy the man
With the face that smiles!

But it has to have a name
(Something strong
Something faithful
Something pure...)
How does he look so safe?

He'll never
Never turn away
Happy the man...
