

# The Cure, NY Trip

NY Trip

One by one they drop you said  
Left us two on a ride stopped dead  
Its monkeys on the track  
All fell out of their tree  
Lost their tails I said  
In the deep dark sea  
So take me on the ice and push me around  
And every time I fall I kiss the ground  
You skate on by without a sound  
Yeah Im in love with you cold  
Any warmer and I drown  
Whatever you want  
Whatever you need  
Oh anything at all  
Im only here to please you  
In any way I can  
Theres really nothing in the world  
I wont do  
To get a New York Disney smile from you  
Ow! Youre so beautiful it hurts  
Ow! The most beautiful girl I ever  
Ow! Too beautiful for words  
Now please! Inside beside me  
And lets take on the world  
One by one they drop you said  
Left us two on a ride stopped dead  
Its hard to be sure  
But I swear theyre whales  
Swimming down the line  
Spitting monkey tails  
So drag me on the floor and get me to twirl  
And every twist around I buss you first  
You spin right through  
A perfect blur  
Yeah Im in love with you quick  
Any slower and I burst  
Whatever you want  
Whatever you need  
Yeah anything at all  
Im only here to please you  
In any way I can  
Theres really nothing  
I wont do  
To get a New York Disney smile from you  
Ow! Youre so beautiful it hurts  
Ow! The most beautiful girl I ever  
Ow! Too beautiful for words  
Now please! Inside beside me  
And lets take on the world  
One by one they drop you said  
Left us two on a ride stopped dead  
Its vultures on the rail  
And theyre packed down tight  
Best get close I said  
This could take all night
